Professional Profile

Data and Business Analyst with over 8 years of demonstrated success leveraging technical analytics frameworks to streamline supply chain, fulfillment, and tech-enabled operations. Adept at translating complex, multi-layered data into decision-ready insights for senior leadership. Proven expertise in building automated tracking systems, optimizing P&L performance, and managing end-to-end product enablement from requirement mapping to UAT and rollout across Automobile Export Packaging, Returnable Packaging, and multi-location fulfillment functions.

Professional Experience

Holisol Logistics Pvt. Ltd.

Manager – Business Navigation

New Delhi, India

Apr 2025 – Present

- Empower executive leadership decision-making by converting operational, financial, and network capacity data into actionable insights across multiple Lines of Business (LOBs).
- Provide rigorous analytics support for high-volume fulfillment center operations and multi-location capacity planning metrics.
- Design and manage customized business metrics to streamline long-term tracking and minimize operational gaps.

Holisol Logistics Pvt. Ltd.

Assistant Manager – Business Navigation

New Delhi, India

Dec 2022 – Mar 2025

- Owned monthly P&L analysis for key business verticals, tracking deviations against initial business plans to highlight financial risks and operational improvement areas.
- Supported institutional annual business planning processes through detailed demand forecasting, capacity tracking, and milestone evaluations.
- Shifted corporate reporting frameworks from traditional descriptive dashboards to insight-led analytical reviews, directly influencing cost, productivity, and critical SLA decisions.
- Acted as the core interface and technical bridge between operations and engineering teams to accurately define data requirements and validate internal enterprise tools.

Holisol Logistics Pvt. Ltd.

Business Analyst

New Delhi, India

Mar 2021 – Oct 2022

- Led end-to-end requirement mapping, user acceptance testing (UAT) support, and organizational rollout for vital internal software tools including **HoliSight (Sales CRM)** [🔗](#), **HoliStart (Manpower Onboarding)** [🔗](#), **HoliNet (Facility Management)** [🔗](#), and **HoliAsset (IT asset management)**.
- Drove structured internal adoption and iteration of BI-based telemetry dashboards across core warehouse fulfillment operations.
- Monitored operational data points including capacity utilization, manpower productivity, daily/monthly P&L variances, alongside per-unit realization and cost tracking.
- Prepared accurate sales and pipeline forecasts fully aligned with dynamic market data and organizational revenue targets.

Holisol Logistics Pvt. Ltd.

Specialist – Business Development (Retail)

New Delhi, India

Jan 2018 – Feb 2021

- Managed key major enterprise accounts including UrbanClap, Hopscotch, and Koovs, securing sustained service deliveries.
- Coordinated end-to-end fulfillment workflows across warehouse and logistics nodes to satisfy rigorous client SLA and TAT commitments.
- Onboarded and managed strategic B2B and B2C client frameworks across nationwide warehousing, transportation, and last-mile operations.
- Owned complete Zoho CRM administration, pipeline analytics, custom dashboard development, and senior management executive reporting.
- Conducted systematic market research and business pipeline analyses to uncover new client acquisition and whitespace opportunities.

Technical & Core Skills

Analytics & Languages: Data Analysis, Business Analysis, SQL, Python, Predictive Modeling, Data Visualization

Tools & Platforms: Tableau, Power BI, MS Excel (Advanced), Zoho CRM, WMS, TMS, DMS, LMS

Business & Product Operations: P&L Analysis, Demand Forecasting, Multi-Location Capacity Planning, Requirement Mapping, UAT, Process Engineering, SLA & TAT Optimization

Core Strengths: Cross-Functional Stakeholder Coordination, Structured Problem-Solving, Agile Product Delivery, Technical Communication, Data-Driven Decision Ownership

Early Projects & Operational Internships

- **UNDP Warehouse Orchestration (Ranchi):** Led complete layout design, setup, and initial operations for a major warehouse setup, streamlining inbound-outbound material flow and stabilization parameters.
- **Flipkart Last-Mile Scale-Up (Lucknow):** Managed B2C last-mile operational frameworks and distribution center setup for Flipkart, ensuring full SLA adherence and zero drop-offs during high-volume scaling periods.
- **Monte Carlo B2B Fulfillment (Ludhiana):** Oversaw B2B logistics architectures, coordinating across customers, picking warehouses, and collection hubs to systematically resolve critical bottlenecks.
- **Technical Internships & Training:** Completed advanced Warehouse Operations Training tracks at Holisol Logistics; acquired deep manufacturing exposure covering CNC systems and G-Code logic at SAIL (Bhilai), and embedded system architectures at HP India.

Education

B.Tech – Electronics & Communication Engineering

Noida Institute of Engineering & Technology (UPTU), Uttar Pradesh, India

2014

Aggregate: 63.66%

Achievements & Extra-Curricular Activities

- Winner of the Inter-College Technical Symposium for excellence in systems architecture planning and technical presentation.
- Secured multiple podium finishes in regional robotics design and automated vehicle competitions.
- Active organizer and regular participant within high-level corporate and academic technical committees.
